HOW IT WORKS

1. Since most custodians only allow limited investments like stocks on which they get commissions, we transfer your IRA(s) to a new Custodian which, founded in 1969, currently serves 22,000 clients.
2. They allow us to form a private investment company (LLC) of which your IRA is the 100% owner. You are named the *unpaid* manager by the custodian and you agree to abide by Congressional IRA investment rules.
3. The LLC is now the investment vehicle. The Custodian is not involved in the transactions, which gives you direct control of the funds thus eliminating delays, transaction fees and asset fees.
4. As Manager you approve investments, sign all documents, decide where and how many bank or brokerage accounts the LLC needs. You have freedom to invest in what Congress has allowed for 35 years.
5. Profits may remain in the LLC untaxed until you personally receive a distribution from the IRA. There are no tax returns to file for the LLC.

WE GIVE YOU THE TOOLS TO TAKE CHARGE OF YOUR RETIREMENT AND YOUR LIFE.
